Gonski Review

The Tasmanian Principals Association (TPA) welcomes the release of the Review of Funding for Schooling (GONSKI) report, acknowledges the integrity and complexity of the task and commends the panel on the comprehensive and timely report.

TPA commends the findings of the report in particular:

- The understanding of the impact of disadvantage on student outcomes and recognises the current inequity that exists.
- The intent of the report to create a more balance funding model to address disadvantage
- The recognition that not all states and territories have the same capacity to fund their schools
- The acknowledgement that leadership is a key element for the success of our students

We welcome the additional funding for the Tasmanian Government students and the opportunity to be involved with the on-going development of funding across Australia to ensure we close the gap and regain our OECD rankings

TPA will work with parent and school communities to make them aware of the reports recommendations and on behalf of their children advocate for their immediate implementation.
